

Delphi Technologies

Remanufactured All Makes
Diesel Fuel Injection Products

Delphi Technologies

Cleaner.
Better.
Further.

Delphi Technologies **remanufactured injectors** and **pumps** will keep the world trucking by keeping parts on the road and out of landfills.

With over 60 years of technological OE expertise, we are proud to be able to provide **sustainable global solutions** that will prepare our customers for the road ahead.

Did you know?

To ensure proper engine performance, the new unique trim code provided with applicable C7, C13 and C15 injectors **must** be entered into the ECM.

The trim code eliminates any variation in injector performance due to small differences in manufacturing tolerances, friction between components and fuel flow.

Installing these injectors without the trim code can potentially create a number of problems including low power, high power, rough idle, emissions issues and in severe cases, engine damage.

For more trim code information, visit www.delphitrancode.com or scan the QR code:
